PROFESSIONAL EXPERIENCE

Accenture | Application Development | Washington, DC   05/2018 - 04/2022
- *Technology Consultant*   *11/2021 - 04/2022*
  - Developed a process to scale production support to 300+ federal agencies and 11,000+ industry clients onboarding into an enterprise application (NBIS).
  - Provided technical subject matter expertise about the NBIS application to federal and commercial clients including NASA, Deloitte, and all branches of the US Military.
  - Led client meetings to develop a strategy to onboard their organization into the NBIS app.
  - Designed best practice documentation for clients.
- *Application Development Senior Analyst*   *11/2019 - 11/2021*
  - Built an enterprise application using Pega for the Department of Defense to process one million+ security clearances annually for employees across the entire federal government.
  - Built an agent in Pega using Javascript that automated the scheduling of background investigations, reducing the investigation lifecycle by over 50%.
  - Conducted code reviews and mentored junior developers on the team.
  - Utilized: JavaScript, Pegasystems, HTML, CSS
- *Application Development Analyst*   *05/2018 - 11/2019*
  - Built the front end for an admin portal using Javascript, HTML, and CSS for the NBIS application.
  - Configured SOAP services in Pega to integrate with external systems, and used SoapUI and Postman for testing.
  - Used assistive technologies (JAWS, NVDA) to audit the application for accessibility, and made code changes to bring the application to a level AAA standard in compliance with Section 508.
  - Translated technical concepts and solutions for non-technical clients and stakeholders.
  - Utilized: Pegasystems, Javascript, CSS, HTML, Java

EDUCATION

The University of Illinois at Urbana-Champaign   08/2013 - 05/2017
Bachelor of Arts in Statistics and Economics

Fullstack Academy Web Development Bootcamp   04/2022 - 07/2022
Software Engineering Certificate
Full-time, Full Stack Javascript Web Development Immersive

TECHNICAL PROJECTS

HappiList | **Developer** | 07/2022 | github.com | Demo
- Full stack social media app for iOS and Android that lets you democratize your todo lists amongst your friends, and upload stories for friends to see your accomplishments.
- Features I contributed: Firebase authentication, media upload for stories and posts, viewing stories, sending friend requests, content moderation using Tensorflow machine learning models, and more.
- Tech stack: React Native, Node.js, NoSQL (Firebase), Tensorflow, Expo

PROFESSIONAL CERTIFICATIONS

- Certified Professional Agile Coach and Agile Team Facilitator, by ICAgile, 12/2021
- Certified SAFe 5 Practitioner, by Scaled Agile, 02/2021
